This pricing schedule may not include the rates adopted by the Commission in various Dockets before the effective date of this agreement and after the date the parties filed for arbitration. SBC and Level 3 agree that within thirty days (30) of the date that this Interconnection Agreement is filed with the Commission, they will agree upon pricing appendices which they will then file as an amendment to this ICA to update the pricing contained in this Appendix to include the rates ordered and effective by the Commission prior to the filing date but which rates shall apply retroactively to the Effective Date of this Agreement, which filing shall take place immediately upon approval of the Successor Agreement and First Superseding Amendment. SBC, accordingly, agrees that upon filing of this Agreement that it will provide to Level 3 notice of change of pricing as well as the legal basis for such changes (e.g. it will reference the decisions and/or effective orders it relies upon as grounds for such changes).

The Parties acknowledge that the Pricing Schedule may contain rates for unbundled network elements that are not available pursuant to the terms and conditions of the ICA. The Parties agree that, to the extent that SBC is not required to provide certain unbundled network elements according to federal law that rates for such elements will not be included in the pricing appendix when it is amended by the Parties as set forth above. Thus, the clinculsion of such rates in this pricing schedule does not entitle Level 3 to order the network element(s), product(s) or service(s) that are no longer available pursuant to the terms and conditions of the ICA.
